About This Content

Hovan Revenge - is an additional storyline of Bloodbath Kavkaz. This is a tragic tale of a forgotten vlogblogger and stand-up comedian Jury Hovansky, which is happening during the main story of Bloodbath Kavkaz. Left by his best friends and dissatisfied with his own life, Jury, while being in a deep drunk dream, hears out his Alter ego and decides to fight his enemies and restore the justice.

TURN 64
End Turn

Story is just incredible generic and boring. It tries to be scary at times, but even fails in that department. Extremely annoying Ghosts/Spirits and uninteresting Characters all over the place. Dull notes of Lore you can find and Drawings without any connection to anything. Overall Story and the conclusion is just meh.

Puzzles are ok, but they are just very easy and the solution is most of the time right next to the puzzle itself. Which isn't that bad, but still looks like if they didn't put much thought into it. There mostly just 3 recurring puzzles you have to handle. One kind of sliding puzzle for gates to unlock, one kind of "hit buttons puzzle" to open all the optional puzzle boxes and one kind of "memorize 5-6 buttons in a row puzzle" for main story boxes to open. The just vary a little bit, but nothing more. Only interesting puzzles are those few that advance the main story. Anything else is boring, easy and uninspired.

Only real positive about it, it's over pretty soon and you can get 100% on Archivements easy, if you interested. Music is ok. Playtime is very short. Just 6-8 hours.

If you really wanna buy it wait for a heavy sale. If you don't buy it, be assured, you won't miss anything. There are just so many good puzzle games out there and even better Walking Simulators than this, if you into such things. This one is just not worth the money.

Meh. One of the substandard HO's. I wouldn't pay more than a few dollars, and I honestly get bored and stop playing every 15 minutes or so.. Great game. and Humour. wow this was more fun than I had anticipated
9/10 would make cutlery and fruit explode by punching them again. If you're into short bursts (like, 2 minutes) of light, puzzle-ish gameplay with airy graphics and music, it's worth a go. It's perfect for killing 5-10 minutes. It even loads and quits extremely fast!

Excellent game on the cheap. If you like managing resources, space, and tower defense, check this one out. I was so happy that I could play this on the first episode of Save Your Coins.. A really under-rated game with excellent controls and a fair amount of challenge.

Includes Gameboy like graphics, a good nostalgia vibe and some very memorable songs.
